Sas	8
Business Inteligence	10
Supply Chain	8
Lean/ Agile	9
Team Management	10
Fire	10

EXPERIENCE

Hewlett Packard Enterprise Austin, TX
Business Intelligence Lead
September 2015 - Current

As a program lead at Hewlett Packard Enterprise, I perfected my skills of BI tools, by managing a team specializing in the back-end support for various platforms. The platforms of which I helped manage were Tableau, Qlikview, Qliksense, SAP Business Objects, TIBCO Spotfire, as well as analytics tools SAS and RServe. Was responsible for change management process, on boarding tenants, customer support, platform presentations, POCs (testing validity of new ideas), server build-outs, software installs, etc.

Hewlett-Packard Houston, TX
Supply Chain BI Engineer

June 2014 - September 2015

I honed my skills in a variety of Big Data management platforms. Acquired a great understanding of Data Warehousing by working with ETL programs such as Informatica and Data Services, while also creating analytic dashboards with programs such as Business Objects, Qlikview, and most extensively Tableau.
